### Technician and Laboratory Facilities Requests Procedure

Pat Brainard, SangHyun Lee, Jason McCormick and Steve Donajkowski

Updated 6/3/2025 to reflect changes in the process.

UNIVERSITY of MICHIGAN ■ COLLEGE of ENGINEERING

# **Procedure Objectives**

- Take full advantage of the excellent technical staff, fabrication facilities and testing laboratories in CEE
- Better integrate the technical staff into projects during planning stages
- Coordinate laboratory and fabrication resources equitably across the department
- Provide a formal means of assessing the quality, timeliness and professionalism of the technical staff

### **Technical Staff**

Steve Donajkowski Structures Lab Manager

Tobias Pace Engineering Technician

### Tom Yavaraksi Laboratory Services Supervisor

Kaelan Flint Laboratory & IT Technician

CIVIL AND ENVIRONMENTAL ENGINEERING

# Laboratory Facilities

Structural Engineering Laboratory

CIVIL AND ENVIRONMENTAL ENGINEERING

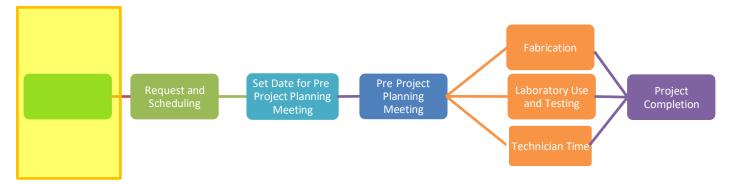

### **Mechanical Testing Laboratory**

**Fabrication Facilities** 

### Need for Research Support:

- Have fabrication needs; require use of the structural engineering laboratory, mechanical testing laboratory or concrete mixing laboratory; or need technical staff support on a project or potential project
- Involve the technical staff early on in the process
- Resist the urge to purchase parts or full pieces of equipment

Request and Scheduling:

- Fill out Work, Test and Lab Time Request Form
- Initiate collaborative relationship between the project team and technical staff
- Provide as much information about the need and project as possible

### Work, Test and Lab Time Request Form

### CEE Technical Work, Test, Lab and Time Request

Please fill out the required information. Pre-planning meeting is required when starting a new project or test. Additional meetings may be required depending on work.

The name, usemane and photo associated with your Google account will be recorded when you upload files and submit this form. Not jamocorm/journich.edu? <u>Switch account</u>

Civil and Environmental Engineering

Set Date for Pre-Project Planning Meeting:

- Technical Services Supervisor will use the Work, Test and Lab Time Request Form to setup a pre-planning meeting with the researchers and appropriate technical staff
- Response to the submitter will be within 2 business days

### Pre-Project Planning Meeting(s):

- Required for every project that needs fabrication, use of laboratory space/equipment and use of technician time
- Used to identify important elements of the request
- Links appropriate technical staff with the project team
- Establishes an agreed upon timeline for the project
- Large/complex projects may require multiple meetings
- Upon completion project is added to the work requests spreadsheet and lab usage and planning google calendar

### Work Request Spreadsheet

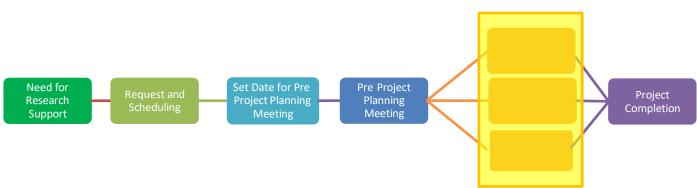

- Contains work order number, technician assigned, status, project team contact information, project information, and project location
- Shows ongoing and completed projects
- Use to track the status of your project

### Fabrication for Projects:

- During Pre-Project Planning meeting(s) (typically 1 week):
  - Requirements of the element to be fabricated are established
  - Refine the design and suggest purchase needs
- Multiple Pre-Project Planning meetings may be required
- Technical Services Supervisor will assign appropriate technical staff member to the fabrication project
- Technical staff member will work with the project team to order necessary material and equipment
- Fabrication will take at least 2 weeks for most situations
- Basic fabrication can be done by students/post-docs with proper training

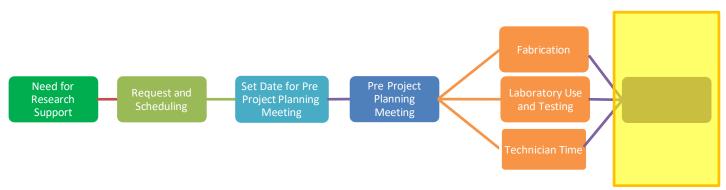

### Laboratory Use and Testing:

- During Pre-Project Planning meeting(s) (as long as needed):
  - Establish facilities requirements and timeline
  - Ensure participants have met laboratory safety and equipment training requirements
  - Meeting may be short or replaced with an email exchange for use of small load frames
- Simple mechanical behavior testing when fixtures are available and testing has been conducted previously (SOPs available) require 24 hour notice
- Complicated and larger tests require 5 business days' notice
- After hours use of the structural engineering laboratory, concrete mixing laboratory and mechanical testing laboratory is discouraged
  - Arrange with Technical Services Supervisor and Laboratory Director
  - Use the "buddy" system

### **Technician Time:**

- During Pre-Project Planning meeting(s):
  - Establish what is involved, when and how long
  - Determine if technical staff has qualifications to perform request
- Requires 5 business days notice
- Off campus work
  - Must be within regular business hours
  - Technical staff are not expected to use their own vehicles
  - Must be approved by the Department Chair with request submitted to the Chair by the Technical Services Supervisor

### Project Completion:

- What constitutes completion of the work is determined during the Pre-Project Planning Meeting
- Projects completion is agreed upon by the project team and assigned technical staff

### Last Minute Requests

- Fill out Work, Test and Lab Time Request Form immediately
- Clearly state what needs to be completed and the required timeline
- Provide reason for last minute request
- Pre-Project Planning meeting will be setup as soon as possible
- Faculty member may be asked to contact any other faculty member that this last minute request affects

Technical Service Supervisor will make every effort to accommodate the request

### Questions
